

Boyle County Public Library

Free Computer Workshops

December 2017

COMPUTER BASICS - Monday, December 4th at 11:00 AM

This class is an introduction to the various parts of a computer. It will cover the importance of and difference between hardware and software, using a mouse/keyboard, and give an overview of how to launch programs.

INTERNET BASICS - Monday, December 11th at 11:00 AM

What is the internet? Why is it useful? This class will cover accessing websites, different browsers, common buttons and menus, and more! (Computer Basics recommended.)

EMAIL BASICS - Wednesday, December 13th at 2:00 PM

This class will provide new computer users with some basic skills to set up and use an email account, including sending emails and adding attachments. (Internet Basics recommended.)

FACEBOOK - Monday, December 18th at 11:00 AM

*Interested in social networking? This class will cover creating a Facebook account, customizing your profile, and determining your security and privacy settings. **If you already have an account, please have your username/password on hand.** (Internet Basics recommended.)*

**To register for programs, call
(859)238-7323
or go to the library website.**
